

MEDICAL HEALTH FORM

Prior to your treatment we will need to discuss any medication you are currently taking.

We will also run through the following questions to determine if a permanent makeup treatment is suitable for you.

If you have any questions regarding your medication or any health conditions please contact me at info@emmapreston-pmu.co.uk

You are advised not to take the following, 2 days before your appointment

Aspirin

Alcohol

Anti-inflammatories

Antabuse

Have you ever had an allergic reaction to any of the following:

Metals

Pigments

Lidocaine / Anesthetic

Foods

Glycerin

Antiseptics

Other

- Have you ever had a dental injection to numb your gums?
- Prior to dental procedures do you receive antibiotic medication?
- Difficulty with breathing or rapid heartbeat with a dental injection?
- Chemotherapy or radiation therapy in the last year
- Cancer With In Last Year
- MRI scan scheduled in the next 3 months?
- Laser or IPL close to the area in the past or in the future?
- Do you give blood? (You will not be able to give blood within 4 months after your treatment)
- Sensitized reactions to tattoos or permanent make-up?

You are unable to have a treatment if you have any of the following:

- Pregnant
- Breast feeding
- A contagious disease
- Lupus
- Diabetics dependent on insulin
- Prone to keloid scars in treatment area
- Prone to hypertrophic scars in treatment area
- Epilepsy (some exceptions can be made but must be discussed in advance)
- Glaucoma or Cataracts (for eyeliner only)

There may be other conditions that may mean you are unable to have a treatment but these will be identified by other questions in the Medical Health Form.

*For some medications/conditions you may be required to ask to have your Doctor sign/or agree for you to go ahead with a micropigmentation treatment
